

Foresight for Vendor Risk Management

Hundreds of vendors. Millions of data touchpoints.
How do you manage exposure and maintain confidence in your operations?

by:  OccamSec

Radius is the vendor risk management solution that removes the blind spot in your supply chain, so you can ensure the privacy and security of your data.

Safer

Integrated threat intelligence provides a holistic view to inform vendor risk level.

Smarter

Collaboration, compliance, and industry standards ensure efficiency.

Stronger

In-depth solution helps to prevent, adapt, and recover from operational disruptions.

Turn Shared Risk into Shared Rewards

Gain the advantage from knowing what lies beneath your vendor's service offerings and online reviews. Radius gives you the foresight to avoid vendor security pitfalls, positioning you and your partners to go further, together.

Benefits include:

- Centralized solution with global access
- Scalable, repeatable, and cost-effective
- Intelligence-driven decision-making
- Enhanced communication between users
- Maximized time and resources
- Fortified business continuity
- Compliance with industry standards

92%

of legal and compliance leaders state that material risk cannot be identified through due diligence alone, requiring engagement and information gathering over a period of time to uncover threats.

(2019 Gartner Third-Party Risk Management Survey)

Avoid Vendor Security Pitfalls

Protect your customers, employees, and stakeholders.

Know Your Partners. Know Your Risk.

Streamline your vendor management process and identify exposures caused by third-party access to your data and operations. Features include:

Standard + customizable assessments for benchmarking your vendors (NIST, ISO, CSA, Shared Assessments, and more)

Integrated threat intelligence combines the latest information available to inform the true security standing of your vendors

Ensures continuous collaboration between your risk managers and vendors

Workflow and user prompts drive focus on priorities with automated alerts, reminders, and follow-up messaging

Fixed price annual subscription offers unlimited assessments, vendors, and users

Easy screen navigation and user interface for any risk management professional

Secure SaaS solution supports a timely program launch without technological complexity

Managed service support with smart analysts to help power your process and support your risk leaders
